

**OUR GOLDEN  
STORIES**

# Bokamoso Cleaning: A partnership that transforms communities

**FEBRUARY 2025**

**We are proud to support local businesses that not only enhance our operations but also drive meaningful positive change within their communities. One such partner is Bokamoso Cleaning, a dynamic company based in Welkom, Free State, that has been working with us for nearly 14 years.**

Bokamoso Cleaning, a subdivision of Rasekao Trading, began its journey in 2023 as a cleaning service provider. Co-Director Buti Mokeretla and his team specialise in comprehensive cleaning solutions, including office cleaning, deep cleaning for changing houses, and underground sanitation services. Their growth has been fuelled by their long-standing partnership with Harmony, which has enabled them to expand their services and increase their workforce.

***"Our collaboration with Harmony has been pivotal in our development," Buti Mokeretla says.***

**Co-Director Buti Mokeretla and his team specialise in the following:**

**Comprehensive  
cleaning  
solutions**

**Office cleaning**

**Deep cleaning  
for changing  
houses**

**Underground  
sanitation  
services.**

***"Starting with just three employees, we've grown to a team of 25, thanks to the support and trust Harmony has provided. This partnership has allowed us to invest in our community and offer more services."***

The impact of this partnership extends beyond the workplace. Harmony's support has played a crucial role in creating jobs and supporting local employment. Additionally, Bokamoso Cleaning has embraced social responsibility by funding school shoes for children in the community, demonstrating their commitment to giving back.

***"We aspire to be the leading cleaning service provider in the region, serving both the mining sector and other private industries," Buti adds. "Our continued growth and success are directly tied to the opportunities Harmony has afforded us."***

At Harmony, we look forward to continuing to ensure that a minimum of 80% of our services procurement goes to South African, BEE-compliant companies, creating sustainable impact. Through this rewarding partnership with Bokamoso Cleaning we continue to strive for even greater achievements.
